COMMUNITY NOTICE: Fort Benning conducting controlled burning Dec. 3, 2012.

FORT BENNING, Ga. – The Directorate of Public Works is conducting controlled/prescribed burn in the northeast portion of post today. Winds are favorable and smoke is not expected to escape post.

The wind and dispersion index – how quickly the smoke dissipates – are the most critical factors in predicting the effects of smoke generated by the controlled burn activities. Officials work to prevent smoke from reaching Main Post, housing areas and the communities surrounding Fort Benning.

Community members may call 706-545-2238 for more information. Media who would like more information on controlled/prescribed burning should call 706-545-6674 or 706-545-8970.
