Congratulations, I would like to welcome you to the 6th Ranger Training Battalion. You've joined an outfit that not only has a very challenging and unique mission, but one that has a long and colorful heritage spanning over 50 years. I guarantee that your assignment at Camp James Rudder will be a professionally and personally rewarding experience.

The 6th RTB conducts the final phase of Ranger School, the Swamp Phase. At 6th RTB, we complete the production of our Nation's most lethal Warriors by putting them through the only crucible training experience in the United States Army. We train leaders safely through stress inoculation to lead teams and win in any combat setting or environment.

The expectation of every Soldier assigned to 6th RTB is to epitomize the U. S. Army Ranger and live the Ranger Creed. At 6th RTB the foundation we strive to pursue is built through Leader Development, Team Building, and Training Ranger Students. Our Soldiers must also exhibit mental and physical toughness, technical and tactical proficiency and demand this from their subordinates. We also hold our 6th RTB families as an important cornerstone ensuring that we enjoy work and make time for recreation.

Any further information can be gathered from the 6th RTB website, <https://www.benning.army.mil/rtb/6th%20RTB%20Website/Ranger%20home.html>, or the Eglin AFB website, <http://www.eglin.af.mil>. The History of Camp James E. Rudder: 6th Ranger Training Battalion

Camp James E. Rudder is the final stage of the nine-week course that starts at Fort Benning, Ga., and continues in the mountains of northern Georgia. After parachuting into Camp Rudder, the students spend 18 days learning jungle tactics, including stream crossings. The Ranger course is designed to develop military leaders who are physically and mentally tough and self-disciplined. It challenges them to think, act and react effectively under stress approaching that found in combat.

The Florida Ranger Camp was established November 15, 1951 by, then, MAJ Arthur "Bull" Simons who was named the Commander of the Amphibious/Jungle Training Committee at Auxiliary Field Seven, which was the initial location of the Camp. Colonel Simons was later the Commander of the prisoner of war rescue attempt on Son Tay, North Vietnam. The Florida Ranger Camp remained at Field 7 for 20 years until it was moved to Field 6 in January 1970.

In June 1974, the Florida Ranger Camp was officially renamed Camp James E. Rudder in honor of MG James E. Rudder, who commanded the 2d Ranger Battalion when it scaled the cliffs at Pointe Du Hoc, France, during the 1944 D-Day Normandy invasion.

The 6th Ranger Training Battalion's mission is to develop the leadership and combat functional skills of future ground combat leaders by making them conduct missions in a tactically realistic environment under physical and mental stresses that approach those found in combat. Included in the field training exercises are airborne and helicopter assaults, small boat operations, river crossings and swamp crossings. Leadership skills are taxed when conducting small unit operations in a simulated combat environment by the daily challenges students encounter including severe weather, swampy terrain, periods of sleep and food deprivation, mental and physical fatigue, as well as emotional stress. The 6th Ranger Training Battalion's parent organization is the Ranger Training Brigade located at Fort Benning, Georgia.

Over the years, 22 students have died during the Florida phase of training. The worst accident was in February 1995 when four students died of hypothermia while on exercises in the swamps. The 1995 accident was blamed on several factors, including a sudden rise in the water level on Boiling Creek coupled with other unexpected weather changes, such as fog that delayed rescue efforts.

Since 1995, measures that are more sophisticated have been put into place that cast an elaborate, yet invisible, safety net around the students. As students plan ambushes and negotiate swamps, field ambulances are posted minutes away. Two evacuation helicopters and many rescue boats are on standby and are constantly advised of changing conditions. Before students enter the water, divers check out conditions. In addition, an elaborate system to monitor weather and water conditions and depths exists at every step in the exercise.

Training remains tough for the men who aspire to be the Army's most elite warriors. The Army has also placed more emphasis on protecting Rangers during training. Camp officials say that with lessons learned from the training accident in 1995, and more resources thanks to allocations from Congress, the danger of training casualties has been greatly reduced.

Camp Rudder (U.S. Army Ranger Camp) is near the intersection of Ranger Camp Road and Lewis Turner Boulevard, Ft. Walton Beach, Florida. Ranger Camp Road is 1.6 miles east of the traffic light at Lewis Turner Blvd., and Rte. 85, in the scenic woods of the Eglin AFB military reservation.

The Ranger Camp, the Ranger personnel and their families are an integral part of Eglin AFB and Okaloosa County. The Camp Rudder military housing area lies just west of the city of Fort Walton Beach, Florida sharing many of the cultural aspects of the surrounding area. The Ranger community regularly participates in events within the community as well as sponsoring fund raising events for local charities. Some of these activities are listed below.

INPROCESSING PROCEDURES

FORT BENNING

The first step to inprocessing is to report to the Welcome Center, BLDG 2602, Soldier's Plaza, and Fort Benning, GA. You must inprocess Fort Benning and Ranger Training Brigade before you report to 6th Ranger Training Battalion Eglin Air Force Base, Florida. Do not make any attempts to purchase or lease a house in Florida until you have the BDE CSM's approval. Temporary lodging is available at Fort Benning for you and your family. It is important you save all your receipts to claim TLE once you arrive at 6th RTBn.

The Fort Benning in/out processing and Replacement Operations focuses on the installation clearance procedures and individual Soldier readiness verification for assigned Soldiers. AG organizes the various installation agencies needed to welcome and depart permanent party Soldiers and their Families from Fort Benning. Initial installation sign-in and replacement center support are operational 24 hours daily at Building 2607, 706-545-3608. Upon arrival to the Replacement Center between 0600-0800 hours, it is necessary to be in uniform as in processing will start that day. If anytime after 0800 hours, uniform is not necessary and in processing will start the following morning unless it is a weekend or holiday.

Upon arrival at the Replacement Operations Center, each Soldier is asked a list of questions which will result in them receiving a "tailored" inprocessing checklist. This "tailored" checklist will require them to inprocess only those optional agencies which are applicable to their needs. There are a total of ten (10) optional inprocessing agencies and twelve (12) mandatory agencies.

During the first full day of in processing, all soldiers attend a 4 hour session that involves briefings given by DENTAC, MEDPROS, Occupational Health, Health Promotions, Pinnacle (Post Housing), Finance, ACS/DMWR, Drug and Alcohol, and Better Opportunities for Single Soldiers (BOSS). TRICARE inprocessing will be conducted when you arrive at Eglin AFB. You will need to hand-carry your Dental records to Camp Rudder. They will be maintained at 6th RTB. Your medical records will need to be sent to 6th RTB, hand-carried if possible.

There is a mandatory safety briefing that every Soldier must attend. The safety briefing is held on Monday, Wednesday, and Friday at 0800 in building 2605 Soldier's Plaza. Soldiers 26 years old and below have a 2.5 hour briefing; Soldiers 27 and older have a 1 hour briefing.

Upon completion of these sessions, Soldiers proceed to complete other inprocessing requirements identified on their "tailored" checklist. All inprocessing agencies are located in Soldier's Plaza and are within walking distance. Overall, it takes on average of 3 days to complete the Fort Benning installation inprocessing. Other in processing requirements will be conducted at the Ranger Training Brigade (i.e., Central Issue Facility, Security Clearance, Government Credit Cards, etc.).

TRICARE ENROLLMENT PORTABILITY

A feature of TRICARE Prime allows active duty families the opportunity to transfer their healthcare coverage from one TRICARE contractor region to another.

WHEN LEAVING YOUR CURRENT LOCATION

- If your family members are in TRICARE Prime, **DO NOT DISENROLL**. Remain enrolled at your current location while you are enroute to Camp Rudder. Disenrollment before you move, it will cause a gap in your TRICARE Prime coverage and you will be responsible for the bills. You can call TRICARE South Region at (800) 444-5445 and have a transfer form sent to you prior to your PCS or pick one up at TMC 12 upon arrival to Camp Rudder.
- If you have an existing medical condition that may need immediate attention in your new region, such as pregnancy or a chronic illness, please contact the South Region TRICARE contractor in advance to expedite PCM selection and records transfer, (800) 444-5445.
- Make sure you have an adequate supply of your prescriptions. Filling prescriptions in advance of your move will help you avoid the need to purchase the prescription and then file a claim for reimbursement while all systems are being updated with your enrollment change. Follow the existing guidelines regarding non-emergency care authorizations. (Call your Primary Care Manager (PCM) **at previous station** for authorizations should you need care during your move).
- Always present identification with your current Prime contractor's information to the provider when obtaining care. If you already have a TRICARE Prime identification card, present this. If your enrollment is in process, present a copy of your enrollment application. Supplying the provider with this information at the time of service will minimize the likelihood of claim payment delays and confusion.

UPON ARRIVAL AT YOUR NEW LOCATION

- It is **mandatory** for all active duty soldiers to apply for TRICARE. While in-processing the battalion, all active duty personnel will report to the TRICARE Service Center and TRICARE element co-located in the TRICARE building behind the Eglin hospital to receive their TRICARE Prime Remote application. You may also call the TRICARE Service Center at 1-800-444-5445 for assistance and information, as well as TRICAREonline.com for

information and scheduling appointments, 24 hours a day, 7 days a week. Civilian health care providers provide health care for active duty personnel.

- Transfer your family members' enrollment as soon as you arrive at Camp Rudder. (**Do not wait until you need care to turn in your application**).
- While in-processing at Camp Rudder, complete an enrollment/transfer application and choose a new Primary Care Manager (PCM). When completing the enrollment or transfer form, make sure you note on the application that you are using the “**transfer**” option (if you were enrolled in Prime elsewhere).
- Your enrollment transfer will be coordinated by the new contractor with the former contractor and is effective the day the new contractor receives your completed enrollment application. However, it may take up to 2 - 3 weeks for your PCM selection to be validated, your new Prime identification card to be issued, and your records to be updated in all systems. (**Keep a copy of the enrollment form you have completed in case you need care – this form serves as your temporary identification as a Prime member**).
- If you have submitted your new application, but have not yet received your TRICARE identification card confirming your PCM selection, we suggest that you verify receipt of your application and determine your PCM assignment before obtaining non-emergency health care. This will help reduce the risk of incurring higher Point-of-Service costs for seeking care.
- Beneficiary Service Representative Line, 800-444-5445.

RANGER CREED

Recognizing that I volunteered as a Ranger, fully knowing the hazards of my chosen profession, I will always endeavor to uphold the prestige, honor, and high esprit de corps of the Rangers.

Acknowledging the fact that a Ranger is a more elite soldier who arrives at the cutting edge of battle by land, sea, or air, I accept the fact that as a Ranger my country expects me to move further, faster, and fight harder than any other soldier.

Never shall I fail my comrades. I will always keep myself mentally alert, physically strong, and morally straight and I will shoulder more than my share of the task whatever it may be, one hundred percent and then some.

Gallantly will I show the world that I am a specially selected and well trained soldier. My courtesy to superior officers, neatness of dress, and care of equipment shall set the example for others to follow.

Energetically will I meet the enemies of my country. I shall defeat them on the field of battle for I am better trained and will fight with all my might. Surrender is not a Ranger word. I will never leave a fallen comrade to fall into the hands of the enemy and under no circumstances will I ever embarrass my country.

Readily will I display the intestinal fortitude required to fight on to the Ranger objective and complete the mission, though I be the lone survivor.

RANGERS LEAD THE WAY!
