

- AEWE is an unclassified experiment. Classified technologies will not be accepted.
- All costs of preparing, submitting and presenting submissions for the experiment are solely those of the submitter.
- All costs associated with participating in the experiment to include travel, shipping, technical training costs, technical integration costs, technology maintenance and sustainment costs are the responsibility of the submitter.
- Selected technologies must sign a Vendor Demonstration Agreement (VDA) in order to participate in the experiment. The VDA is an agreement with the vendor and U.S. Government that states the following:
 1. **Participating in experiment in any way does NOT obligate the U.S. Government to purchase or otherwise acquire the items or services demonstrated or displayed.**
 2. U.S. Government assumes NO cost or obligation, expressed or implied, for damage to, destruction of, or loss of any vendor provided equipment or material used in the experiment.
 3. The government is NOT responsible for any lodging, transportation or meals and incidental expenses incurred by technology providers during the experiment.
 4. U.S. Government is NOT bound nor obligated in any way to give any special consideration to the vendor on future contracts as a result of this experiment.
 5. Display of vendor's product, its capabilities, and the presentation of any technical data associated with it may involve the participation of foreign military personnel assigned as liaisons to the U.S. Army and other components of the Department of Defense (DoD), as well as personnel of U.S. coalition partners. Such displays and disclosures may be considered an "export" of technical data under the International Traffic in Arms Regulations (ITAR), 22 CFR Chapter I, Subchapter M.

- Selected technologies will be required to participate in three Coordinating Working Groups (CWG) in order complete pre-experimentation planning and administration requirements.

May 2016 – CWG #1, Fort Benning GA

August 2016 – CWG #2, Fort Benning GA

December 2016 – CWG#3, Fort Benning GA 3

- Selected technologies will be required to provide training to Soldiers who will employ their technology during the experiment. Training will be conducted from October 2016 to January 2017 at Fort Benning, GA. Training slots will be scheduled during CWG #2 (August 2016) based on technology provider input. Required resources (time, classroom facilities, ranges, etc.) for training must be requested NLT CWG #2.
- Certain selected technologies that will be integrated with other systems or the AEWE network will be required to conduct the integration necessary to employ their technology during the experiment. Technology integration will take place from October 2016 to January 2017 at Fort Benning, GA.
