INTRODUCTION:

This position is located in the Department of Homeland Security (DHS), U.S. Customs and Border Protection (CBP), U.S. Border Patrol (USBP), and serves as a Logistician in the Law Enforcement Operations Directorate (LEOD), Unmanned Technology Operations Center (UTOOC). The incumbent(s) will work alongside and support the CBP' Small Unmanned Aircraft Systems (SUAS) (aka Drone) and/or Counter Unmanned Aircraft System Programs.

MAJOR DUTIES AND RESPONSIBILITIES:

In this position you will serve as Logistician. Typical work assignments include:

Serve as logistics assistant and includes in-processing of new SUAS and CUAS equipment. Other tasks include, but would not be limited to: outboard processing of equipment for distribution to field Sectors/locations, assisting with C-UAS equipment outboarding for mass protection events, organizing and cataloging existing equipment,

offering external expertise that can increase efficiency, and supporting bi-annual inventory cycles.

Guidelines include CBP, and USBP-specific directives, policies and procedures primarily pertaining to administration and Logistics, and other written or verbal guidelines and instructions provided by the supervisor or other USBP senior management. Guides are not completely applicable to the work and have gaps in specificity. The employee uses judgment in interpreting and adapting guidelines for application to specific cases or problems. The employee analyzes results and recommends changes including those to current processes and/or long standing policies.

The work includes varied duties requiring many different and unrelated processes and methods applied to the analysis of interrelated issues and effectiveness, efficiency, and productivity of major processes or programs. Decisions regarding what needs to be done include the assessment of unusual circumstances, variations in approach, and incomplete or conflicting data and information. The work requires decisions concerning the interpretation of considerable data from logistics, procurement, budget, etc.; and refining methods and techniques used to achieve program goals.

The work involves applying accepted criteria, principles, and standard methods to resolve a variety of conventional issues and problems and/or portions of broader studies that require developing detailed procedures and guidelines to supplement existing guidance. Work reports and recommendations influence the decisions made by managers and other employees and affect the customer's perception of the overall quality and service of the program.
