

MEMORANDUM FOR TRAINERS

SUBJECT: Range Bulletin: 02-15 for Period 25-31 Jan and 5-11 Apr 15

1. **Range Operations:****Weekly firing schedule/hours of support currently in-place.**

- Radio Room will run 24-7, except for Federal Holidays published in Table 2, below.
- No firing past 2400 hours....may be able to flex work schedules to longer periods, however will require minimum of 6-weeks' notice...all OT will be approved case-by-case and by exception with Units paying OT up front...just because OT funding is available, does not mean manpower is as well. Remember, we still need to allow travel time for Range Personnel, so some training may have to be shut-down earlier than 2400 hours depending on employee shift schedules and travel time required to get back to the rear to clock out.
- Saturday firing priority will only be RC Units, OSUT/IET BRM POI training and will only be allowed during the day up until 2000 hours (2 8-hr shifts), no night time firing allowed. Priority will go to the RC Units for training, however cannot exceed Saturday capability.
- No big bullet range firing is allowed on weekends.
- **Sunday** and **Holiday** "Live Firing (includes SIM Rds)" or "High Risk" training **is not** currently authorized on the installation. Exceptions to this policy will require DPTMS approval and OT funding costs may apply for support purposes.

a. **Red Lock Replacement:** Range Division has now started replacing all old red locks on all range gates with the new locks being black in color beginning on 17 Dec 14. The old red locks will remain on the gates until 30 April 2015. This does not apply to the force protection locks on the exterior gates as they are controlled by DES. Organizations/Units need to request the amount of new keys needed and identify a POC to sign for the new keys. Contractors that may work on the installation may contact Mr. Archie directly to sign for keys. POC for this action is Mr. Ernest Archie, 545-9428.

b. **Air Space Scheduling Requirements:** Procedures for requesting airspace have now changed. Units will be required to request all air space within RFMSS and must annotate the following information as shown in this example in the communication tab of the RFMSS request form. When coordinating with the Air Field Units will be required to bring a copy of the approved RFMSS request with them.

- **DATE:** 1 SEP 09 (each day must be annotated unless all days are exactly alike)
- **START TIME:** 08:00 (Eastern time, see note above)
- **END TIME:** 23:59 (Eastern time, see note above)
- **UNIT/AGENCY:** BAC 1/507th (unit is executing mission/agency is sponsor at Fort Benning)
- **POC & TEL:** SFC EAMES (706) 545-1868 (POC must be able to make short notice decisions on changes/revisions)

g. **New Post Safety staffing procedures for packets/safety risk management worksheets.** New Post Safety policy now requires all work going to them will have a Fort Benning Form 25-52-1-R-E cover sheet which will need to be signed off on by Range Operations or they will not accept it. It must also be staffed through the Unit’s Safety Officer and Master Gunner before it comes to Range Operations. This is driven by Units who have tried to send actions multiple directions before the plan is complete, sometimes with major concept adjustments to which they need to see for their review and approval process.

h. Conduct of the Range Operations De-Confliction meeting is now being executed two (2) times per month, which will always be the 1st and 3rd Thursday of every month. See the schedule below for projected meeting dates.

k. **Range Operations Work Hours:** Manpower shortages and increased workload are driving us to change our hours of support. Listed below are our new hours of Operation. Normal coordination between Units and these sections listed below need to fall into the open time frames. Access to the building and maps boards will be denied during these closure periods as we need uninterrupted time to get our own work done. Units will need to ensure they plan their action around these new time periods. Tuesday afternoons (1200-1600) is the time the staff will conduct the weekly complex map review/training cross-check against unit facility request submissions, which is time consuming and very intensive, requiring all personnel participation. Please limit visits during this time to emergencies only as all others will be turned away!

n. **Zero Target POCs:** Units needing zero targets will need to contact Mr. Ronnie Williams, 545-5677 for Alpha Area and Malone Ranges and Sergeant First Class Schmeiser, 544-7272 (BRM team number) or RP Support Team 706-676-4009 for the Oscar Area Ranges. Ensure this is done in advance (usually the day before) of actual training event(s) as same day requests may not be able to be supported along with normal mission requirements.

o. **Selby CACTF Scheduling:** Effective immediately all Units scheduling Selby CACTF or the Residential District will have to identify on their RFMSS request exactly what building they want to use for their training requirements IAW embedded pdf maps below. A PowerPoint file (CACTF Floor Plans) has also been placed on the Range Operations SharePoint Site under the Work Center and on the Rng Ops Website for use in determining building numbers as well as showing the individual floor layouts within each building which may come in handy when planning training. We are now in the process of creating a new one for the Residential District that will be posted in the near future for use by all.

p. **Big Gun/Kilo Area Range Scheduling/Coordination Requirements:** All units wanting to occupy & train on Brooks, Cactus, Carmouche, DMPCRC, Ruth, Hastings, Terry Demo, K-36 Ranger Objective and Ware ranges, all indirect firing points or any Air Missions into the K-15 impact area will have to follow the procedures outlined below. manpower shortages you may run into any/all of the following, so ensure you plan ahead for any training/certification needs your Unit may require to ensure mission success in these dire times. Tower Operators will have to ensure towers are powered down daily when mission is complete and Units are self-running a range.

Request/change is asked for too late as work schedule are already published, however OT may be able to be applied if manpower if available. The DMPCRC even though contractor supported cannot have any changes under the two week time frame that may affect work schedules. We are required by contract to contractor a minimum of 2-weeks' notice to work schedule adjustments and OT cannot be applied here. No available tower operators. No range personnel to prep ranges, day or night. No range personnel to repair malfunctions or troubleshoot, day or night. No moving targets will be available when Range Division support is not in place.

q. **Medical High Risk Schedules:** Embedded below are the medical support schedules for High Risk training. POC Johnny Knowles, DOTS, 545-5132.

Recommend all keep an eye on these schedules/routes and inform all Units operating in and around them to be aware of these convoys, as these are large vehicles carrying oversized loads to and from training facilities/ranges on the installation and we need to keep all safe. All HETS movements along the northern installation boundary hardball road that goes from Ruth to Hastings needs to be coordinated in advance. Remember, the Unit is responsible for scheduling HETS delivery/pickup and de-conflicting routes/timelines with other Units and Safety patrol if gate access is needed. POC for this is Mr. Calvin Garth, Resource Manager, DOTS, 545-5819.
