

## **COVID-19 UPDATE: RTAC**

### **14 Day Quarantine is NOT required IF:**

- You are 14 days post completion of final DoD approved COVID-19 vaccination prior to RANGER SCHOOL ATRRS report date.

- Only authorized documentation to be shown upon arrival: COVID-19 vaccination card or a copy of electronic immunization record.

- You have fully recovered from a laboratory confirmed diagnosis of COVID-19 infection within 90 days of RANGER SCHOOL ATRRS report date (Soldier must be fully recovered from illness with confirmed diagnosis a minimum of 14 days prior to RTAC ATRRS report date).

- Only authorized documentation to be shown upon arrival (one of the following): Clearance letter/memorandum from a healthcare provider or public health official; Laboratory record of positive COVID-19 infection; DA Form 3349 annotating date of positive test result, signed by appropriate medical authority.

\*\* Students will report to RTAC on the ATRRS report date IF one of the above qualifications apply.

### **14 Day Quarantine IS required if Soldiers do not meet at least one of the aforementioned criteria.**

- Students will quarantine at their current duty station for 14 days and travel to Ft Benning via sterile transportation.

- Student's current unit submits a memorandum to United States Army Infantry School (USAIS) Commandant for approval to attend RTAC and Ranger stating quarantine procedures and sterile transportation to FBGA. The memo must be signed by an O7 and submitted to the USAIS Commandant for review and approval. These must be submitted 14 days prior to the RTAC ATRRS report date. Both sending unit O7 memo and USAIS Commandant concurrence memo must be provided to RTAC cadre on the ATRRS listed report date. Submit all waivers to: [usarmy.benning.mcoe.mbx.usais-training-waivers@mail.mil](mailto:usarmy.benning.mcoe.mbx.usais-training-waivers@mail.mil)

- Quarantine is defined as a 14 day period in a barracks or barracks-like environment with minimal outside contact to ensure no spread of viral vectors to individuals in quarantine.

- Sterile Transportation is defined as government transportation with no exposure to outside threats during the trip. It does not include commercial air, rail, bus, taxi, or POV travel. Units are responsible to consolidate students and procure sterile government transportation from origin to Fort Benning, GA.

- Individuals that fail to meet the requirements as outlined above will not gain entry to the course and will be returned to their point of origin.

///**BREAK**///

If you ARE local to Fort Benning (you are stationed here), you must do the following:

1. You may quarantine at your unit for 14 days prior to course report and must arrive on in-processing day with a memorandum signed by an O5 outlining your quarantine and sterile transportation to Camp Butler.

2. Quarantine is defined as a 14 day period in a barracks or barracks like environment with minimal outside contact to ensure no spread or viral vectors to individuals in quarantine.

3. Sterile Transportation is defined as government transportation with no exposure to outside threats during the trip. It does not include commercial air, rail, bus, taxi, or POV travel. Units are responsible to consolidate students and procure sterile government transportation from origin to Camp Butler.
