Modified Tactical Athlete Performance Assessment (MTAP-A):

On Day One, students will be administered the MTAP-A. The MTAP-A is an assessment that will be given in lieu of the APFT or ACFT. The data collected will be used for training purposes throughout the course. It is highly recommended that students eat a good meal 2 hours prior and bring a snack/ beverage option. The MTAP-A is a physically demanding assessment that may take up to 2 hours to administer.

Tactical Strength and Conditioning – Facilitator (TSAC-F):

Certificate holders are widely recognized in the strength and conditioning industry as experts in the field. As a future tactical physical fitness trainer, we encourage you to certify as a TSAC-F professional. The Holistic Health and Fitness Integrator Course (H2F-IC) Phase 1 (Distributed Learning) and Phase 2 (Resident Course) will help prepare you for the TSAC- F exam. We highly encourage you to enroll for the TSAC-F exam now, utilizing your Credentialing Assistance (CA) benefits in preparation for certification at the conclusion of H2F-IC. For additional information and TSAC-F exam registration go to <https://www.nasca.com/certification/tsac-f/> or <https://www.cool.osd.mil/army/enlisted/p5.htm>
