DESCRIPTION:

Performs skilled work in the operation of Wastewater Treatment Plant equipment and facilities on an assigned shift (shift work is working eight hour shifts that will include the following: working on weekends, nights, and holidays). Operates chemical feed systems and assists in the unloading of chemical deliveries. Collects operational data for the Activated Sludge Process, primary process and solids handling. Keep work area neat and clean and assists laborers in keeping the plant grounds and equipment in an exceptional manner. Monitors treatment facility and process using SCADA system. Inspects for proper operation; pumps, motors, valves, piping systems, backflow preventers, HVAC systems, air compressors, sludge thickening equipment, chemical feed equipment, odor control systems, sludge handling and moving equipment, and utility and process water systems. Operates all plant equipment in all aspects of the treatment process. This job description includes all Career Ladder positions such as Process Control Specialist Apprentice, Process Control Specialist I-A, Process Control Specialist I-B and Process Control Specialist II. The pay grades range from 07-12.

EDUCATION AND EXPERIENCE

High School Diploma or GED required. One (1) year of experience in a wastewater treatment facility as an operator or mechanic preferred. Good knowledge of the functions and servicing requirement of mechanical equipment and machinery required. Good knowledge or the ability to acquire knowledge of the processes involved in wastewater treatment including some chemical tests required. Valid driver's license and a good driving record required. Must climb multiple flights of stairs, work in confined spaces, and work outside in all weather conditions required. Must be able to tolerate occasional exposure to fumes, gases, and air borne particles. Must inspect mechanical equipment in operation, detect flaws and defects, read meters and charts accurately, and maintain records of shift operation required. **Required: Entry level candidates (Grade 7) must obtain a Class III Wastewater Treatment Operators Certificate (minimum) issued by the Georgia State Board of Certification within one year of employment. Must obtain First Aid/CPR, Confined Space Certifications within one year of employment.**
