

# **BOILERMAKERS NATIONAL APPRENTICESHIP PROGRAM WELDER/PRE-APPRENTICESHIP CAREER SKILLS PROGRAM**

## **Make the Right Career Choice**

Our program offers up to 16 weeks of hands-on, classroom, and online training, including OSHA Construction Safety, Weld Joint Preparation, Welding (including SMAW, GTAW, and FCAW), Layout and Steel Fabrication, Oxy-Acetylene Cutting, and Basic Rigging.

Graduates of the program will receive advanced placement and credit toward completing the Boilermakers National Apprenticeship Program (up to 50% of the program) for all classes completed and welding certifications obtained during their Pre-Apprenticeship CSP.

Completing our Pre-Apprenticeship Career Skills Program will give you direct entry into the Boilermakers National Apprenticeship Program in either the Local Lodge within the geographical jurisdiction of your residence or the National Transient District Lodge.

The International Brotherhood of Boilermakers seeks highly motivated, self-starting individuals willing to learn. The Boilermakers Apprenticeship will teach you the skills you need to become an elite craftsman in the building and construction trades.
