DoD SkillBridge Internship
Army Career Skills Program (CSP) Opportunity
Latent Print Processing Analyst (GS-11/12)
NON-REMOTE/IN-PERSON ONLY
U.S. Customs and Border Protection (CBP)
Location: Joint California Forensic Center (JCFC) - San Ysidro, CA

PAY
SkillBridge interns receive their active-duty salary during their internship participation. The following link is the GS pay scale *IF* hired post internship:
https://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/2025/general-schedule/

IMPORTANT NOTE: This opportunity is only open to Army CSP & DoD SkillBridge participants on active-duty who are **AT LEAST 11 MONTHS AWAY** from separation.

REQUIRED BASIC SKILLSET
Latent print processing analysts have opportunities in laboratory settings including, but not limited to: crime scene management, evidence handling and collection, inventory, latent print processing, photography, and report writing.

A Latent Print Processing Analyst assists in providing fast and reliable forensic services relative to the assigned department. These duties may fall under the following programs: budget, purchasing, facilities, quality control, property, policies, health and safety, security, data bases, SharePoint, and training.

In these positions, you will strengthen the Department's ability to protect the homeland by becoming a valuable member of a team of forensic professionals.

Your job will include:

Assisting current Border Patrol Agents with crime scene response and evidence collection and handling.
Assisting current Border Patrol Latent Print Analysts with inventory of evidence and supplies, latent print processing and photography.
Assisting with laboratory records management program
Developing research projects to advance latent print processing techniques on trouble surfaces and prepare research articles for possible publication
Assisting branch chief with policy review
Attending regional forensic and latent print study groups to network and assist with multi-agency events.
