SOFTWARE ENGINEER **YUMA PROVING GROUND, AZ**

Job Code: 2024:0402-148
Location: Yuma Proving Ground, AZ
FT/PT Status: Full Time
Business Sector: Test Range Operations

JOB DESCRIPTION

Under limited supervision, this entry-level software engineer will develop and maintain software solutions to support enterprise level applications that are built using Microsoft .NET. The software engineer must have an understanding of analysis, design and coding concepts. The software engineer must be able to support QA efforts, this includes documenting acceptance workbooks and assisting users with acceptance testing of software deliverables. Other requirements include documenting and implementing security principles, attending regular sprint meetings and the ability to perform in a team environment. Perform other duties as assigned to support mission requirements.
