

FY21 Virtual MICC Enhanced COR Training

MICC Enhanced COR training is mandatory training for all CORs and must be retaken every three years. All students must have an active Army365 account; there is no dial-in or audio-only version. The MICC Enhanced COR training course is designed to build upon DAU COR training. All students are expected to have completed the prerequisite DAU course CLC106, COR With a Mission Focus, or COR 222 Contracting Officer Representative before attending.

MICC-West Point
